## Child CPR Training Manikin

XC-426

### Description

- **CPR Training Manikin Features: Realistic Life-Saving Simulation:** Incorporates external breast compression and artificial respiratory functions with an indicator light display and audible prompts for a lifelike training experience.
- **Interactive Exercise Operation:** Facilitates hands-on practice through operation methods, ensuring students develop practical skills in CPR techniques.
- **Carotid Response Examination:** Simulates carotid pulse examination by hand, allowing users to pinch the pressure ball and assess responsiveness, adding a crucial element to comprehensive CPR training.
